Palmetto Electric's Hilton Head Office to temporarily relocate

Palmetto Electric's Hilton Head office will temporarily be relocating to the former Hargray Administrative Building at 856 William Hilton Parkway. The move will take place on Friday, July 31, and the office will be closed. The office will open for business at the Hargray facility on Monday, August 3.

This temporary office will house all customer service and marketing functions, including drive-through service and night deposit. The Operations Department will remain at the current 111 Mathews Drive location.

“This relocation is necessary in order to accommodate major renovations at the existing site,” said G. Thomas Upshaw, president and CEO. “We estimate that we will be at this location for approximately 18 months,” added Upshaw.
